TUESDAY, APRIL 10, 1923

HELPING BUSINESS.

The French have seized another consignment of 80 billion paper marks. The German printers should be strong for the occupation party.

WHAT ABOUT THAT INQUIRY?

By the way, isn't it about time that prominent investigation into the Callaghan report was got started? The Legislature cannot hold up and get home in time to get a hand with the spring work and the kind of the kind could hardly be completed in a fortnight. It looks as though some body had shamed the Premier's declaration onto a side-track.

MISPLACED MOISTURE.

Sudbury, Ontario, claimed a few days ago to have had a lot of snow on the level. Considering the character of the country thereabouts that does look like a wanton waste of perfectly good moisture that could be made use of, some place else. But it is not what the weather does to other parts of the Dominion, but on this occasion they could do nicely with what the easterners would like to do without.

RETRENCHMENT RAGGED.

The Opposition in the Legislature on Saturday showed the Government where \$45,000 could be chopped off the estimates of two departments, and offered to take the responsibility for the saving. But the Ministers would have none of it. They lined up their followers and railroaded the item through. The Government did not, and will not, permit the Legislature to do so. "A deficit as usual" is the slogan.

SOME REAL FOOT WORK.

London women have taken to pedalambing racing. The winners of one race Saturday took the winners in another over twelve hours trundling the baby carriage, and of the five starters three finished within the hour. It is doubtful if there is a woman in all Canada who could get over the ground in twice the time of those continuous races. And the members of the public would very few men would attempt it. English women of course are famous walkers, and their male relatives trudge distances which no Canadian would think of taking except under necessity. Perhaps the rosy cheeks for which English girls are famous, and the round countenance which characterizes so many of their brothers, are due less to the sea air than to the fact that they use their feet.

THING'S MIGHT BE WORSE.

London political men think that the Bonus Law Government will be compelled to "transplant" by the present session of parliament. That seems fairly probable. The loss of three Ministers running does not argue any "rising tide" of popularity for the Administration. Still, the Ministry may be a long way from breaking down. The fact is that the Government has had a majority of more than ninety when a vote in the House has been taken. And whatever the several opposition parties may think of the Government they seem to think rather less of each other. Mr. Lloyd George's policies are not at all likely to turn the balance in his favor. Mr. MacDonald or Mr. Asquith, in the latter gentlemen are about as likely to reinstate Mr. Lloyd George as the sun is to rise in the West. The Government may be unlucky in elections but it is lucky in the mutual antagonism which holds its critics apart.

A VAIN HOPE.

Premier Greenfield says it may take five years to stabilize the finances of the Province. At the present rate of giving five cents per head to the thin dime tax, the Minister continues to extort from taxpayers by increasing levies, and to bring down estimates which call for spending a million dollars per year more than they think they can collect, what is the use talking about balancing the budget? Every year the Minister's third draft of the estimates do the same in for an inistence that will make up for his impres- siveness and enable him to continue to squander, but that does not often happen. In the usual course of things prodigality leads to the poor house. It may be that some time a "wave" of prosperity will sweep over the Province which will automatically boost the provincial income be-

ond the spending program of the Government. Unlikely as that may be, it is the one chance that the income will ever equal the outgo while the present line of fiscal policy is pursued.

A COMPETITIVE OUTLET NEEDED.

The activities of the British Columbia government with eastbound freight rates does not meet with the approval of the Montreal Gazette. On April 2nd the Gazette devoted its leading editorial—evidently addressed to the members of the Dominion Parliament—to the question of "Discrimination in Freight Rates," in the course

of "The chief danger attaching to the annex of British Columbia for an amendment to the Railway Act in respect of discriminatory freight rates is that such rates may not be considered discriminatory, as it is plain and intentionally against every form of unjust discrimination, and there is a general clause in the act which says that

rates shall be based upon the cost of

British Columbia. The chief danger attaching to the annex of British Columbia for an amendment to the Railway Act in respect of discriminatory freight rates is that such rates may not be considered discriminatory, as it is plain and intentionally against every form of unjust discrimination, and there is a general clause in the act which says that

Judging of Bulls Monday Afternoon

Monday, April 9th, 1923. Judging of bulls at the Edmonton Spring Show started at 10 a.m.

Shorthorns.

Bulls over 18 months—1. Laver der Land, O. C. Molin, Calmar; 2. Glenwood Comet, A. H. Main, Yorkton; 3. Red Rock Bull, G. G. Gao, R. H. Ball, Edmonton Smith, 4. Dan's Bull, Edmonton Smith, 5. Burns Grove, S. Warren Adams, A. H. Main.

Bulls over 24 and under 28 months—1. Scotland Knight, A. H. Main; 2. Burns Grove, S. Warren Adams, Allyn, R. H. Ball, Edmonton Smith, 3. Forest Brook, Lingfield, W. J. Burns, 4. Glenwood Comet, A. H. Main.

NOTED SPEAKER WILL BE HEARD IN THIS CITY

Dr. Barker Coming Under Auspices of Rotary Club—No Change Made

Doctor Charles E. Barker, the man who kept泰k physically fit while he was president of the United States, will speak to the Rotarians of today via subjects of vital interest to men, women, and children, at 8 p.m., Wednesday, April 12th, next, April 18th in three of his most popular talks.

He comes to this city through the efforts of the Edmonton Rotarians in connection with the work of the Rotarians, and he may be heard free of all charge. The meeting will be at the Hotel Alberta, at any of the three addresses he is to deliver here.

The speaker, who is a member of the 1919 annual Rotary convention, has been a Rotarian since 1914, and is responsible to his son, who was received so favorably, that he was asked to speak again. He has given many talks on the same and similar addresses.

He is a graduate of the University of Michigan, and has been a teacher at high school boys and girls in the United States and Canada.

Dr. Barker makes no attempt at high flown oratory. His talks are just plain, simple, down-to-earth ones, full of the type of plain common sense and forceful presentation that can be easily understood at a time, which is about the average length of his talks.

Edmonton Program.

At 8 p.m., April 12th, Dr. Barker will speak on "The School, Normal and University Students on the Subject of Health and Hygiene."

At 8 p.m. he will speak to men on "How to Keep Fit," and at 8 p.m. on the subject "A Mother's Responsibility."

All three addresses will be in the Hotel Alberta, 1020—10th Street, and there will be neither admission fee nor collection at any of the meetings, as the Alberta Rotary club is meeting all expenses in connection with Dr. Barker's visit.

**TWO CENTS EACH;
GOPHER TAILS IN
CLOVER BAR AREA**

The monthly meeting of the council of the Municipal district of Cloverdale was held at the hall on the corner of 10th and 102nd Street on Tuesday last, which was the longest meeting the council have had in many years. The meeting began from 11 o'clock a.m. until 10 o'clock at night.

Mr. John Galloway appeared before the council to further the matter of the new bridge across the river problem. In the short but interesting speech he made, he said that whatever he mentioned the enormous loss the farmer was subject to through the flooding of his land every year. He deplored the lack of help given him by the government, and he advocated the employment of a weed inspector and a strict enforcement of the weed laws.

The receiver reported he had taken the advice of the engineer and the contractor superintendent who had informed him that no assistance could be expected from the government, and that he was leaving a qualified inspector for the job.

The council accepted the proposal of the Canadian National railway to make a new bridge across the river at the S.W. 1/4 10-22-4 in lieu of concrete.

The question of renewing the lease of the hall for gopher tails and the distribution of the same among the residents was again discussed. It was voted to renew the lease for one cent a tail and for all gopher tails handed in to the councillors or secretaries of the various clubs, and when the bounty will be discontinued.

Mr. Galloway offered to supply poison and packages of same will be available at the residence of Mr. Galloway, 1020—10th Street, from the secretary.

A large pile of lumber was placed with the Hunter Lumber Co., by submitting the lowest tender.

The medical officer of health for the entire area.

The rate of pay and working on the roads was asked and was decided to adopt the rates which prevailed last year.

With the coming of a large amount of correspondence and the passing of paybooks and accounts the office was closed at the hour the meeting ended.

The meeting will be held on the 1st of May.

**TWO GERMANS
ARE KILLED IN
RIOTS IN MEMEL**

BERLIN, April 9.—Two Germans have been killed in a series of disturbances in which the German and Lithuanian factions in Memel were involved. The news was first telegraphed to the Berlin newspapers.

Memel has been brought into play by the Lithuanians in denouncing a German meeting of the Memel population in corporation of the Memel region in Lithuania.

LONDON, April 9.—A Berlin delegation to the Times reported that its address from Memel indicated the situation there is quiet and that the strike probable will be settled immediately.
